our difference

WHAT MAKES OSMOSIS' SERUMS DIFFERENT?

VITAMIN A SERUMS

Other Vitamin A serums thin the skin, cause irritation, and damage DNA in the sun.

Osmosis Vitamin A serums take innovation to another level.

LIPOSOMAL RETINALDEHYDE:

- Safest form of Vitamin A in the sun
- Can be used while pregnant or breastfeeding
- Proven to be 1,000 times stronger at stimulating collagen
- 6 times better at penetration than other retinols
- Most DNA-protective retinol

KEY ACTIVES IN ALL SERUMS:

- **Phosphatidylcholine** - sun protective, barrier restoring, oil balancing
- **Liposomal Niacinamide** - skin detoxing, nutrient feeding, wound healing
- **Liposomal Chlorella** - collagen & elastin stimulating, UVB protective and potent antioxidant
- **Liposomal 1,3 Beta Glucan** - scar tissue repairing, collage stimulating, growth factor enhancing
- **Liposomal Asiaticoside** - fibroblast recruiting, collagen protecting, anti-inflammatory

TREATMENT SERUMS

Other treatment serums only offer temporary lightening and plumping effects and do little to correct the underlying skin damage.

Osmosis treatment serums contain patented and exclusive ingredient technology that allows us to target the source of skin damage to create real change and lasting results.

VITAMIN C SERUMS

Other Vitamin C serums are only marginally effective because they are missing their most important ingredient partners.

Proof of **Osmosis'** superior, patented approach to maximizing Vitamin C comes from our clinical trial results:

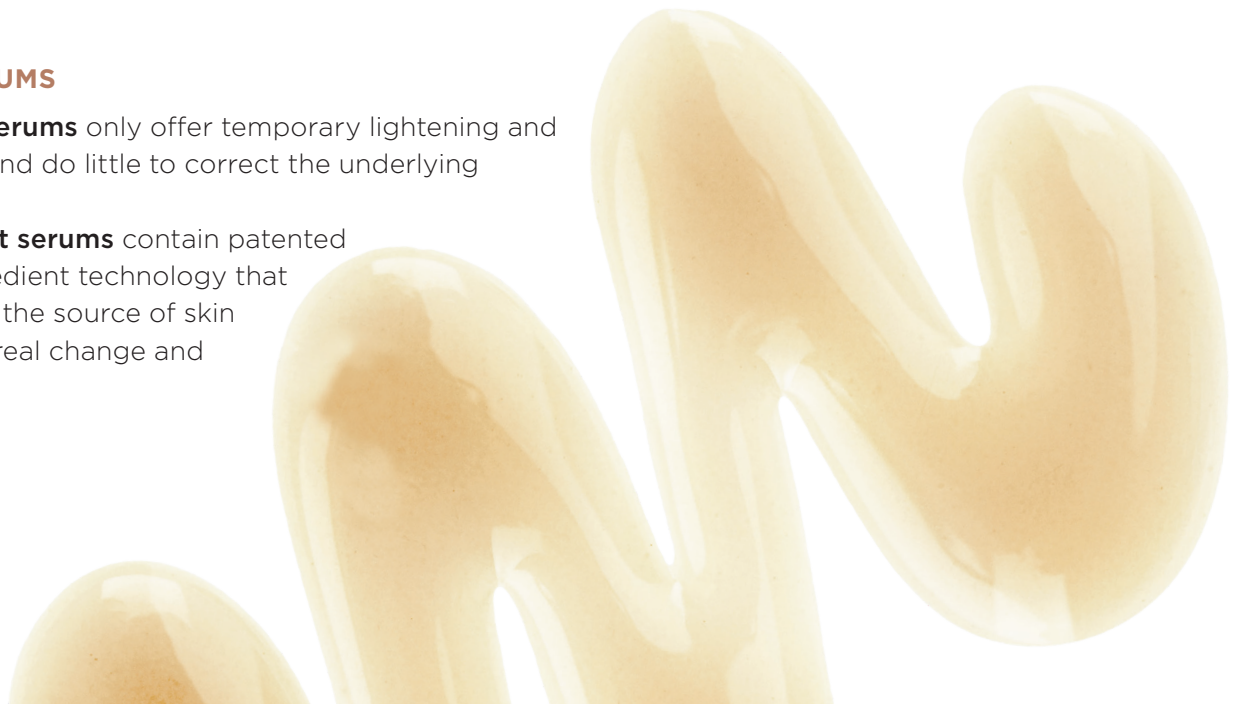

- **110%** increase in skin elasticity
- **32%** improvement in skin radiance & luminosity
- **15%** reduction in pre-cancerous skin lesions
- **64%** reduction in broken capillaries & redness
- **17%** improvement in fine lines & wrinkles
- **15%** tightening of the eyelids

PEPTIDES

Other peptide serums provide temporary plumping but do not improve the health of the skin.

Osmosis uses adult human stem cell-derived peptides and growth factors that truly benefit skin health in the following ways:

- Clinically proven to activate rejuvenation genes
- Contains over **600** peptides and growth factors
- Uses exosome technology for better penetration and stability

Osmosis

OUR CLEAN + HOLISTIC APPROACH

Transparent formulations, non-toxic ingredients, trusted results.

At Osmosis Beauty, we think differently. Our mission is to change the way we treat our skin, empowering its innate ability to heal itself to create real, lasting results without compromise. We do this by looking at skincare through a holistic lens.

Rooted in the science of the skin-body connection, we go more than skin deep to target the source of common concerns. Osmosis combines the most effective detox strategies with medical-grade, non-toxic, topical formulas and strategic facial services to achieve authentic transformations and overall well-being. Our bodies are constantly showing us what they need; all we have to do is understand the clues, which is now easy and accessible with Skin Mapping.

Our revolutionary Skin Mapping approach is a thoroughly researched and clinically proven breakthrough that provides clear assistance in the analysis of the organs, toxins, and mechanisms involved in most common skin conditions. Each facial zone represents an organ and the internal imbalances that often reveal themselves on the skin.

OUR SCIENCE

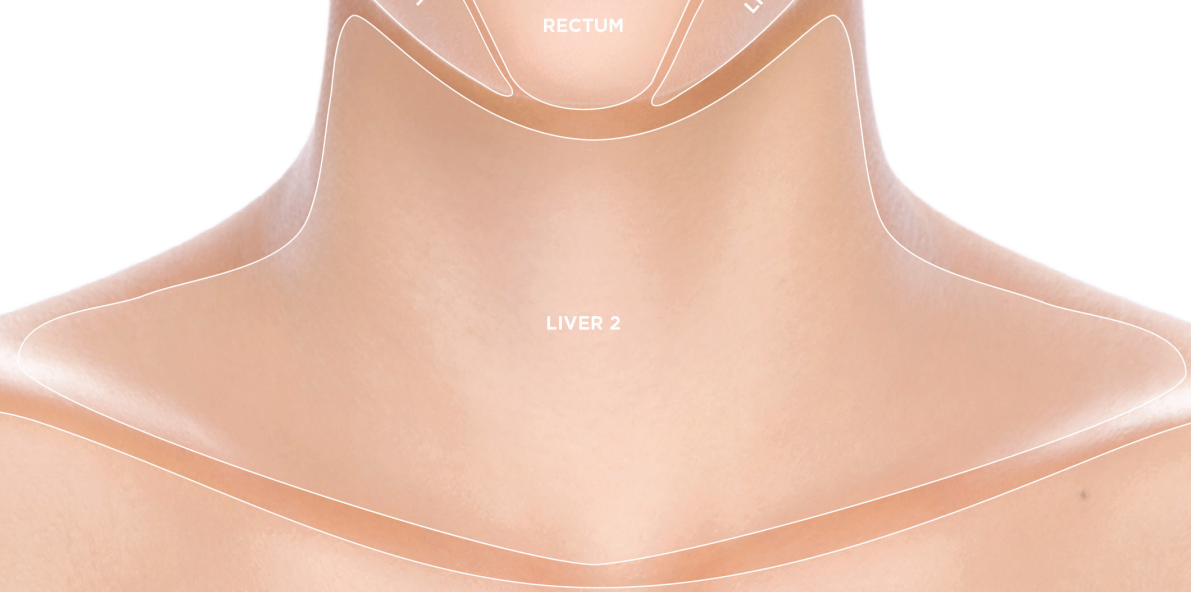

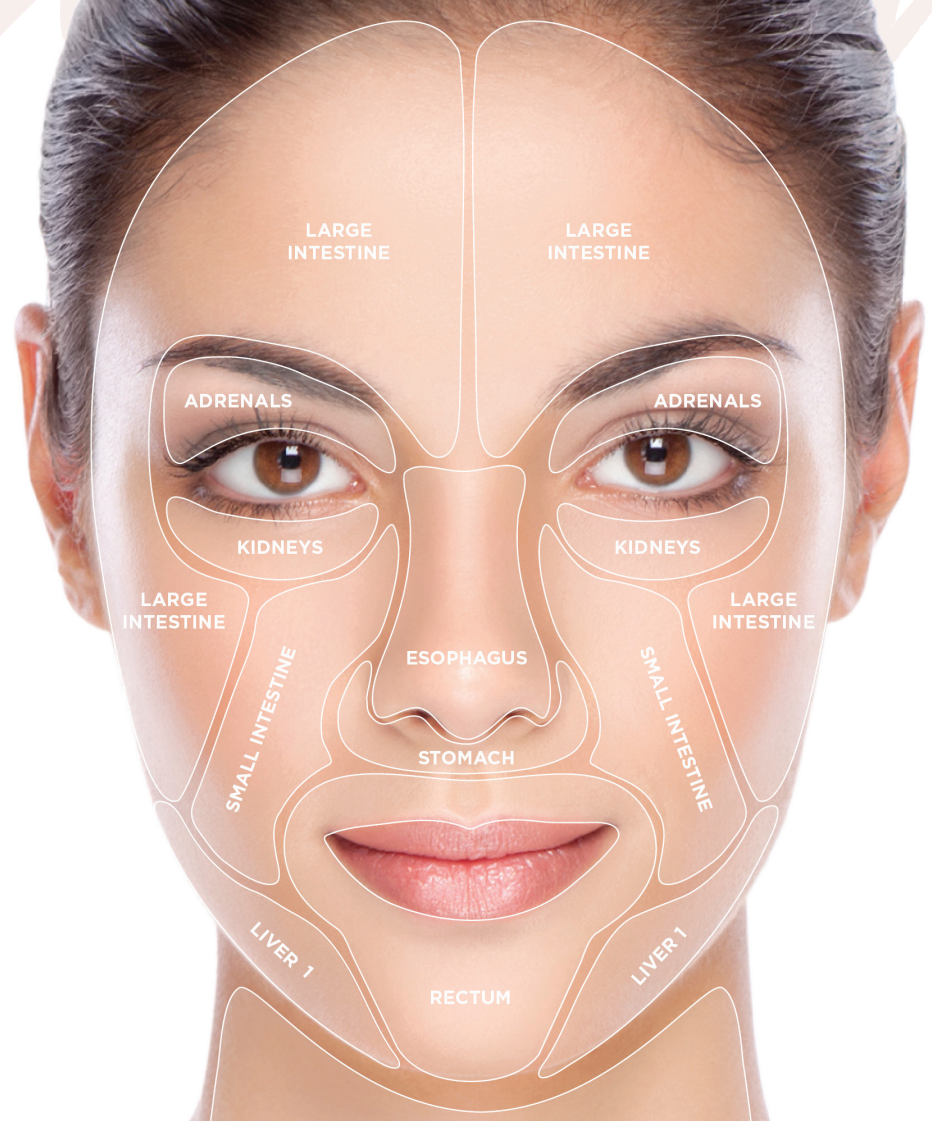

Transformative science for over a decade.

Our entire line is founded on medically developed, clinically validated, and consumer-proven results that are patented, tested, and trusted. Each of our innovative products is exactly designed and formulated to help create real, visible change in the skin.

- Multiple ingredient technology patents for 8 skin conditions
- Clinical studies for: Skin Perfection, Catalyst AC-11, and StemFactor
- Medical-grade delivery systems
- Noninflammatory, biocompatible formulations
- Targeted actives deliver benefits to the source of skin concerns
- Pharmaceutically pure formulating standards
- Clean, transparent ingredients

SKIN CONDITIONS + RECOMMENDATIONS

ACNE: DIGESTIVE

SKIN ZONE: Nose, Upper Cheek, Forehead, Chin

ORGAN: Esophagus, Small/Large Intestines, Rectum

Skin conditions that appear in these zones are caused by imbalances due to toxins from an overgrowth of candida in the digestive tract. This is often caused by hormones, sugar, and mucus-producing foods; dairy, fried foods, and citric acid.

PRODUCT RECOMMENDATION

Topical: Rescue; spot treat with Clarify

Internal: Skin Clarifier, Skin Perfection Elixir, Recovery

ACNE: LIVER

SKIN ZONE: Jawline, Neck, Chest, Back

ORGAN: Liver

Skin conditions that appear in these zones are caused by estrogen-like environmental toxins. Food preservatives are purged in Liver Zone 1 (jawline). Pesticides purge in Liver Zone 2 (neck). Chlorine purges in Liver Zone 3 (chest and back).

PRODUCT RECOMMENDATION

Topical: Rescue; spot treat with Clarify

Internal: Skin Defense, Skin Perfection Elixir

ACNE: BLACKHEADS

SKIN ZONE: Nose, Cheek, Forehead, Chin

ORGAN: Esophagus, Intestines, Chest, Rectum

This condition is caused by purging mucus from our organs.

PRODUCT RECOMMENDATION

Topical: Rescue; Clarify

Internal: Skin Clarifier, Digestive Support, Recovery

DARK CIRCLES OR PUFFY EYES

SKIN ZONE: Eyes

ORGAN: Adrenals, Kidneys

Upper eyelids represent the adrenals; irritation in this area can be related to stress. The skin just below the eyes reflects the kidneys. Puffiness is caused by many pain medications and/or alcohol. Dark circles are from poor sleep or heavy metals with both weakening kidney health.

PRODUCT RECOMMENDATION

Topical: Vitamin A Serum, Refresh

Internal: Hormone Relief Elixir, Relax & Unwind Elixir

ROSACEA

SKIN ZONE: Nose, Upper and Lower Cheek, Chin

ORGAN: Esophagus, Stomach, Intestines, Rectum

Inflammation in the digestive tract is the cause of rosacea. The esophagus zone suffers from acid reflux including capillaries on the side of the nose. The stomach zone reacts to H.Pylori and gastritis. The intestine zones become red from candida, gluten, food allergies, IBS, and more.

PRODUCT RECOMMENDATION

Topical: Rescue, StemFactor, Calm

Internal: Immune Activator, Digestive Support, Skin Perfection Elixir, Skin Clarifier, Recovery

HYPERPIGMENTATION

SKIN ZONE: Face and Body

ORGAN: Liver

Discoloration on the face and body is caused by sun damage or liver damage. Healing age spots so that they do not return requires repair of oxidation and DNA damage in a way only Osmosis patented protocols can do.

PRODUCT RECOMMENDATION

Topical: Catalyst AC-11®, Correct, Rescue

Internal: Skin Defense, Immune Activator, Ageless Vitality Elixir, Regenerate

AGING

SKIN ZONE: All

ORGAN: Vital Organs, Tissues and Cells

Aging is affected by every organ's lost vitality.

Every facial zone is affected by hormone changes, environmental toxicity, and the skin's immune strength. Skin changes include oxidation (free-radical damage), texture and pore changes, facial lines, and laxity.

PRODUCT RECOMMENDATION

Topical: Catalyst AC-11®, Correct, StemFactor, Rescue

Internal: Skin Defense, Collagen Activator, Ageless Vitality Elixir, Hormone Relief Elixir, Recovery
